Customer’s Feedback for Kunal.

linkedin.com/in/vishwakarmakunal

Hi Team,
I have been asked to give You all feedback regarding Kunal Vishwakarma. I will do so with the perspective of me being sort of team leader while my manager was on parental leave (march-August) and my thoughts in general. I believe I speak the whole hired in team when providing the feedback.

I have been working with Kunal since start of march this year. He was onboarded in a rush and in into all Security Technology ongoing projects. This didn’t stop him for being curious, wanting to learn og be part of the team. I immediately saw the strength of Kunal being the knowledge and the expertise towards IT related topics and project management. He has thought the team, as well as being able to suggest improvements for ongoing process(es).

I appreciate that we have, and still are, been given the opportunity to work with Kunal. His contribution to the team has made the team improve overall. His understanding for systems and professionalism makes me and the team wanting to continue working with him.

Kim Emanuel Tørring
Security Technology Coordinator
Aker Solutions

To Cognizant:

Kunal Vishwakarma has joined our team and immediately stepped into the ongoing tasks/projects – performed by providing great initiative, interest and efficient projects executions.

We sincerely appreciate his prompt response in resolving unexpected issues, quick decision making continuous & professional support to Security Technology and Access & Mobile teams.

Kunal is always assisting other team members in prioritizing their tasks, explaining any complexities before moving forward with any project, and, most importantly, helping others whenever that is possible.

We are grateful to have such a talented and perceptive person on our team.

Please let me know if you require any further information.

Rusne Zvirbliene
Customer Success & Administrative Coordinator
Aker Solutions

Kunal was instrumental in getting this project completed in spite of all the problems we faced. The project was made very difficult due to user unavailability during lock downs, furlough, other long absences, and also difficult users just not responding to multiple requests.

Kunal supplied us with regular updates explain the current status, problems faced and suggested ways forward to drive this project towards closure.

I would therefore like to thank Kunal for his dedication and focus during this difficult project.

Best Regards
Johan Franks
Senior Manager
Head of Global IT Coordination (Corporate IT) - Striving for Business Composability

---

Kunal was the Project Manager at the beginning of Microsoft defender project at Aker Solutions. He was responsible for planning, executing together with the project team and status update to Stakeholders. During his tenure at the project, he was instrumental to set the baseline of the project with regards timeline, resource allocation to make sure project delivers within the agreed timeline and budget. Kunal was transparent in sharing the status, challenges, issues etc. to stakeholders which is highly appreciated. I just wanted to thank you for the time and effort you put in for our project. We were happy to have you on our team and look forward to seeing you again in the similar projects in the future.

Regards,

Lijo John
Senior Manager
Enterprise Architect - Corp IT

Kunal

I will be delighted to give you feedback on this very well executed project:

From day one, the plan was very clear to all involved and included the key stages and milestones for each of the phases of the project.

- There were some challenges threatening to slow the progress but these were dealt with very well and obstacles removed in time to ensure that milestones are reached without any major panic.
- The pressure was well and truly on to meet the final deadline and hand back the Data Center without any financial penalties.
- The Cognizant team communicated timely and clearly to ensure that the phases are completed in time with minimum interruption to the business.

This project was a flagship for Cognizant's project management capabilities, with seamless execution and minimum interruption.

Well done and a big thank you to all of the teams involved for successfully completing such a challenging project with excellent results.

Best Regards

Johan Franks

Hi Kunal

Thanks for the great effort and for the momentum in solving this case for us, to both yourself and the team!
You have my full acceptance & approval on closure of project.

Again, great job well done, thanks!

Best regards,
Erik Olsen

Kunal,

I'm happy to share my feedback with you for the work on the Branch Office Migration project.

As in the previous projects we worked together, you were / are very solution oriented and very cooperative in this project as well.

The success we achieved so far, is an outcome of your good preparation, internal alignment, and coordination.

Looking forward to completing this project by end of January

Kind regards,

Christoph Feiker

Kunal Vishwakarma has taken the role as technical project manager in Veidekke ’s Cloud Migration project since August until Dec 2021.

This role has been maintained for the customer to a satisfactory degree in managing the Cognizant resources and fulfill the projects’ planned progress and objectives.

Although there has been areas where the contribution has had to adjust and improve in order to meet requirements of structure and detail - such as communication and forecast reporting - Kunal has met these challenges head-on, humbly and without hesitation.

However, his main contribution to our achievements thus far has been the perseverance in making his team productive, his support and loyalty to his peers and his intent to seek constructive solutions, both technical and organizational. He facilitates the workshops, discussions and plans needed with haste and documents the outcome instantly. Combined with a gentle and positive demeanor, his skill set, rooted in thorough industry knowledge, is at its strongest in allowing the customer and his team members to excel.

We at Veidekke has appreciated Kunal’s contribution so far and has our recommendations in future engagements.

Best regards

Brage Frost Urstad

Prosjektleder

Kunal,

as you mentioned this was all in all not a good neither successful project. I know we had many challenges for various reasons.

Feedback to your direct contribution as follows:

- Pro:
  - Your was very solution oriented
  - You always listen to customers
  - You tried to get on time delivery
  - Good and pro-active communication whenever you could
- Room for improvement:
  - Overall project structure and Issue tracker was not well organized. A plain list did not cover all
  - Listen to all customer and customer requirement and try to keep customers separated in such projects with different requirements
  - Escalate earlier and raise critical items earlier

Kind regards,

Christoph Feiker

Hi Kunal,

Working with you on HMH migration was good and knowledgeable experience.

You're always in a positive mood, which encourages me to have a positive attitude. I had a chance to learn a lot and happy to assist you in future project as well.

Thanks & Regard,

Vaibhav Ghormade | Storage Services

Thanks for the input Kunal, and well done.

Happy to see positive feedback from our friends in MHWirth.

Ole Yttredal | Engagement Portfolio Lead

Hi Kunal,

It's nice to work with you in this project.

Key highlights that I would like to share about you

Schedule meeting with other infra teams and getting requirements or dependencies in advance.

Anytime available in Teams chat or call for any quick questions

Sending multiple reminders for updating timesheet so that efforts can be recorded without any miss

Till now around 6 to 7 sites decommissioned and I haven't felt any burden or need to have any conversation or argument with other teams. All went smooth

Sometimes, your MOM itself sufficient for me if I was busy in some other call and unable to join in scheduled call

Overall, it's great experience and indeed I have learned few things from your side.

Nandhakumar N

Network Security Engineer

CIS Security

Hi Kunal

it was a wonderful and great experience to work with you in the Veidekke Cloud migration project, though the environment is new to you and many of technical discussions were already started, you efficiently run the show without any escalations, i really surprised and enjoyed the way you co-ordinate the team by aligning everyone towards the common goal of delivery.

it was a challenge and surprise for everyone in the team when we were asked to change the execution model from traditional to Agile after we are set for the delivery, you played a strong and vital role in quickly understanding the Agile and working closely with the customer updating us with the change & task and aligning us to the Agile delivery, it was seriously a fantastic job that you did in a very quick time.

you got a very good skill of understanding the potential of everyone in the team, with that you clearly know whom to assign the task and how to get best out of every member in the team, which is seriously a good skill for a PM. i honestly appreciate that.

once again it was a good time working with you, will cherish this in my career.

All the best..

Thanks

Nagarajan M

Hi Kunal,

It is very good experience working with you.

The overall support and understanding of project is very well. Till now the HMH migration project is going well with the support of all teams including yours.

Regards,

Swapnali G

Hi Kunal,

HMH is one of the sensitive clients of Cognizant and I know this goal wasn't easy to get the migration go with so many challenges, the way you are managing them and systematically set it truly speaks to your intelligence, tenacity, and perseverance. I am very happy to be a part of this project with you.

I would like to thank you for all the knowledge and guidance you have shared during the migration.

Kind Regards

Harshit

Hello Kunal,

I must say that, it was well planned and executed – HMH Migration. Very much appreciated of your efforts in coordination between among all technical teams and plans. Also for clarifying project status and end-to end progress updates.

You are the one with abundant knowledge on process and look forward to work with you again!

Best Regards,

Mythri Kumble

Infrastructure Services | Storage

Hi Kunal,

It was a smooth migration and happy to be a part of this project.

Working with you is always a good learning experience and always had a chance to get additional knowledge.

I really appreciate your “Always available” attitude which help me, and other team members get the things sorted in short time.

Regards,

Nilesh
